Application Ranking Summary

NW Area Farmstead

Program:	Ranking Date:	Application Number:
Ranking Tool: NW Area Farmstead		Applicant:
Final Ranking Score:		Address:
Planner:		Telephone:
Farm Location:		

National Priorities Addressed

Issue Questions	Responses
Clean and Abundant Water: Water Quality - Will the proposed project assist the producer to:	
1. a. Meet regulatory requirements relating to animal feeding operations, or proactively avoid the need for regulatory measures?	Yes <input type="radio"/> or No <input type="radio"/>
1. b. Reduce sediment, nutrients or pesticides from agricultural operations located within a field that adjoins a designated impaired water body?	Yes <input type="radio"/> or No <input type="radio"/>
1. c. Reduce sediment, nutrients or pesticides from agricultural operations located within a field that adjoins a water body?	Yes <input type="radio"/> or No <input type="radio"/>
Clean and Abundant Water: Water Conservation - Will the proposed project assist the producer to:	
2. a. Increase groundwater recharge in identified groundwater depletion areas (http://water.usgs.gov/ogw/rasa/html/TOC.html)?	Yes <input type="radio"/> or No <input type="radio"/>
2. b. Conserve water from irrigation system improvements and result in estimated water savings of at least 5% and saved water will be available for other beneficial uses?	Yes <input type="radio"/> or No <input type="radio"/>
2. c. Conserve water in an area where the applicant participates in a geographically established or watershed-wide project?	Yes <input type="radio"/> or No <input type="radio"/>
Clean Air: Treatment of Air Quality from Agricultural Sources - Will the proposed project assist the producer to:	
3. a. Meet regulatory requirements relating to air quality or proactively avoid the need for regulatory measures?	Yes <input type="radio"/> or No <input type="radio"/>
3. b. Reduce green house gases such as methane, nitrous oxide, and volatile organic compounds (VOC)?	Yes <input type="radio"/> or No <input type="radio"/>
3. c. Increase carbon sequestration?	Yes <input type="radio"/> or No <input type="radio"/>
High Quality, Productive Soils Erosion Reduction - Will the proposed project assist the producer to:	
4. a. Reduce erosion to tolerable limits (Soil "T")?	Yes <input type="radio"/> or No <input type="radio"/>
Healthy Plant and Animal Communities Wildlife Habitat Conservation - Will the proposed project assist the producer to:	
5. a. Benefit threatened and endangered, at-risk, candidate, or species of concern as identified in a State wildlife plan?	Yes <input type="radio"/> or No <input type="radio"/>
5. b. Retain wildlife and plant benefits on land exiting the Conservation Reserve Program (CRP)?	Yes <input type="radio"/> or No <input type="radio"/>
High Quality, Productive Soils, Healthy Plant and Animal Communities: Special Environmental Efforts/Initiatives - Will the proposed project assist the producer to:	
6. a. Eradicate or control noxious or invasive species?	Yes <input type="radio"/> or No <input type="radio"/>
6. b. Increase, improve or establish pollinator habitat?	Yes <input type="radio"/> or No <input type="radio"/>
6. c. Implement precision agricultural methods?	Yes <input type="radio"/> or No <input type="radio"/>
6. d. Properly dispose of animal carcasses?	Yes <input type="radio"/> or No <input type="radio"/>
6. e. Implement an Integrated Pest Management plan?	Yes <input type="radio"/> or No <input type="radio"/>
Energy Conservation – Will the proposed project assist the producer to:	
7. a. Reduce energy consumption on the agricultural operation?	Yes <input type="radio"/> or No <input type="radio"/>
7. b. Increase on-farm energy efficiency with more efficient equipment?	Yes <input type="radio"/> or No <input type="radio"/>

7. c. Assist in implementing energy conservation measures that reduce emissions from GHGs and air pollutants?	Yes <input type="radio"/> or No <input type="radio"/>
Business Lines - Conservation Implementation Additional Ranking Considerations - Will the proposed project result in:	
8. a. Implementation of all planned conservation practices within three years of contract obligation?	Yes <input type="radio"/> or No <input type="radio"/>
8. b. Improvement of existing conservation practices or conservation systems already in place at the time the application is accepted, or will complete an existing conservation system?	Yes <input type="radio"/> or No <input type="radio"/>
Does the applicant meet the following conditions:	
9. a. If the applicant has an existing EQIP contract, has it been, and is it now, on schedule and in full compliance?	Yes <input type="radio"/> or No <input type="radio"/>
9. b. Did the applicant successfully complete any past contract(s) in full compliance?	Yes <input type="radio"/> or No <input type="radio"/>
9. c. Is this the applicant's first EQIP application?	Yes <input type="radio"/> or No <input type="radio"/>

State Issues Addressed

Issue Questions	Responses
1. Water Quality- (Excessive Nutrients and Organics and Surface Water, Harmful Levels of Nutrients and Organics, and/or Pathogens, and/or Pesticides in Groundwater). This resource concern will be addressed by implementation of practice(s) included in this application.	Yes <input type="radio"/> or No <input type="radio"/>
2. Soil Erosion – (Sheet, rill, wind, classic gully, ephemeral, streambank)- This resource concern will be addressed by implementation of practice(s) included in this application.	Yes <input type="radio"/> or No <input type="radio"/>
3. Application includes Comprehensive Nutrient Management Plan (102).	Yes <input type="radio"/> or No <input type="radio"/>
4. Will the implementation of the practice(s) in this application address the control of noxious or invasive species?	Yes <input type="radio"/> or No <input type="radio"/>
5. The applicant is only applying in one fund pool for the general EQIP sign-up.	Yes <input type="radio"/> or No <input type="radio"/>

Local Issues Addressed

Issue Questions	Responses
Section 1 will be for applications containing: Waste Storage Facility (313), Anaerobic Digester (366), Solid/Liquid Waste Separation Facility (632), Waste Facility Cover (367).	
1. The applicant has a certified CNMP and practices included in the application are identified in the plan as being needed.	Yes <input type="radio"/> or No <input type="radio"/>
2. The applicant has and is following an approved nutrient management plan.	Yes <input type="radio"/> or No <input type="radio"/>
3. APPLIES TO APPLICATIONS FOR WASTE STORAGE FACILITY ONLY: Producer does NOT have existing storage that can safely store 30 days or more of manure production at current animal numbers	Yes <input type="radio"/> or No <input type="radio"/>
4. APPLIES TO APPLICATIONS FOR WASTE STORAGE FACILITY ONLY: The Producer is applying for A Waste Storage Facility that can safely store 7 months or more of manure production at current animal numbers or planned, whichever is larger in this application.	Yes <input type="radio"/> or No <input type="radio"/>
5. APPLIES TO APPLICATIONS FOR WASTE STORAGE FACILITY ONLY: The application has resource concerns related to animal production areas located within a Water Quality Management Area (within 300 feet of a stream or 1,000 feet of a lake) and the foot print of the 313 will be located OUTSIDE the SWQMA. The 313 practice must directly solve the resource concerns within the SWQMA. (Directly tied to 313 and manure and wastewater production)	Yes <input type="radio"/> or No <input type="radio"/>
6. APPLIES TO APPLICATIONS FOR WASTE STORAGE FACILITY ONLY: The application has resource concerns related to animal production areas located within a Water Quality Management Area (within 300 feet of a stream or 1,000 feet of a lake) and the foot print of the 313 will be located INSIDE the WQMA. The 313 practice must directly solve the resource concerns within the SWQMA. (Directly tied to 313 and manure and wastewater production)	Yes <input type="radio"/> or No <input type="radio"/>
7. APPLIES TO APPLICATIONS FOR WASTE STORAGE FACILITY ONLY: The application has resource concerns related to animal production areas located within an area with severe limitations as indicated by groundwater or bedrock within 3 feet of the surface and the foot print of the 313 will be located OUTSIDE the area with severe limitations. The 313 practice must directly solve the resource concerns within the area of severe limitations. (Directly tied to 313 and manure and wastewater production)	Yes <input type="radio"/> or No <input type="radio"/>

8. APPLIES TO APPLICATIONS FOR WASTE STORAGE FACILITY ONLY: The application has resource concerns related to animal production areas located within an area with severe limitations as indicated by groundwater or bedrock within 3 feet of the surface and the foot print of the 313 will be located INSIDE the area with severe limitations. The 313 practice must directly solve the resource concerns within the area of severe limitations. (Directly tied to 313 and manure and wastewater production)	Yes <input type="radio"/> or No <input type="radio"/>
9. RESOURCE CONCERN: Air Quality, Excessive Green House Gases, Methane will be addressed through the implementation of Waste Treatment (629), or Waste Storage Facility (313) with Waste Facility Cover (367), or Anaerobic Digester (366), or Waste Treatment (Incinerator or other Treatment Facility 629).	Yes <input type="radio"/> or No <input type="radio"/>
10. RESOURCE CONCERN: Soil Condition, Organic Matter Depletion will be addressed through the implementation of a Solid/Liquid Waste Separation Facility (632) or Waste Treatment (629) included on this application in conjunction with Nutrient Management.	Yes <input type="radio"/> or No <input type="radio"/>
11. APPLIES TO APPLICATIONS WHICH INCLUDE CONSERVATION PRACTICES 313, 366, 629 (Scenario #1), or 632 ONLY: The Animal Waste Index generated for the application is greater than 2.0 for the application.	Yes <input type="radio"/> or No <input type="radio"/>
12. APPLIES TO APPLICATIONS WHICH INCLUDE CONSERVATION PRACTICES 313, 366, 629 (Scenario #1), or 632 ONLY: The Animal Waste Index generated for the application is between 1.5 and 1.99 for the application.	Yes <input type="radio"/> or No <input type="radio"/>
13. APPLIES TO APPLICATIONS WHICH INCLUDE CONSERVATION PRACTICES 313, 366, 629 (Scenario #1), or 632 ONLY: The Animal Waste Index generated for the application is between 1.0 and 1.49 for the application.	Yes <input type="radio"/> or No <input type="radio"/>
14. APPLIES TO APPLICATIONS WHICH INCLUDE CONSERVATION PRACTICES 313, 366, 629 (Scenario #1), or 632 ONLY: The Animal Waste Index generated for the application is greater than 0.5 and less than 0.99 for the application.	Yes <input type="radio"/> or No <input type="radio"/>
15. APPLIES TO APPLICATIONS WHICH INCLUDE CONSERVATION PRACTICES 313, 366, 629 (Scenario #1), or 632 ONLY: The Animal Waste Index generated for the application is less than 0.49 for the application.	Yes <input type="radio"/> or No <input type="radio"/>
Section 2 will be for applications with barnyard systems and practices and/or scenarios not identified in section one and three.	
1. The applicant has a certified CNMP and practices included in the application are identified in the plan as being needed.	Yes <input type="radio"/> or No <input type="radio"/>
2. The practice(s) Well Decommissioning (351) and/or Closure of Waste Impoundment (360) will be used to address the Water Quality – Harmful Levels of Pathogens in Groundwater resource concern.	Yes <input type="radio"/> or No <input type="radio"/>
3. Farmstead practices implemented will result in the interception of clean surface water from livestock and feed storage areas.	Yes <input type="radio"/> or No <input type="radio"/>
4. At least one Farmstead practice will be installed to reduce runoff into a surface water quality management area 300' from a stream, and 1000' from a lake and the practice must have a positive impact on a surface water quality resource concerns.	Yes <input type="radio"/> or No <input type="radio"/>
5. A barnyard system or components of a barnyard system will be used to solve resource concerns resulting from livestock concentrations in areas that have severe limitations. (areas of severe limitation include areas with groundwater close to the soil surface, Highly permeable soils, or bedrock within 3 feet of the surface).	Yes <input type="radio"/> or No <input type="radio"/>
6. Practices included in the application will address visual evidence of manure solids and/or leachate leaving the lots/feed storage areas.	Yes <input type="radio"/> or No <input type="radio"/>
7. Do practices in this application address sheet & rill, shoreline, stream bank or gully erosion?	Yes <input type="radio"/> or No <input type="radio"/>
8. For barnyard systems containing heavy use area protection, is the BERT Rating (at the end of the buffer area) over 150.	Yes <input type="radio"/> or No <input type="radio"/>
9. For barnyard systems containing heavy use area protection, is the BERT Rating (at the end of the buffer area) between 100 and 149.999	Yes <input type="radio"/> or No <input type="radio"/>
Section 3 will be for identified priorities and scenarios and in order to be eligible for section 3, the application must contain only one identified practices (with the exception of roof gutter and underground outlet). Applications with more than one practice (with the exception of roof gutter and underground outlet) will be ranked in section 2 or 1 depending on the additional practices in the application. Practices eligible include: CNMP (102), Well Decommissioning (351), Closure of Waste Impoundment (360), Diversion (362), Roof	

Runoff Structure (558), Underground Outlet (620), and Roof Runoff Structure (558) with an Underground Outlet (620).	
1. Ground water and surface water resource concerns will be solved by specific practices in this application or the application will result in a stand-alone CNMP.	Yes <input type="radio"/> or No <input type="radio"/>
2. A CNMP will be developed for livestock producers who currently stack or daily haul manure and no other practices are included in the application.	Yes <input type="radio"/> or No <input type="radio"/>
3. Surface water resource concerns will be solved by practices in this application. Eligible practices include (360), Diversion (362), Roof Runoff Structure (558), Underground Outlet (620), and Roof Runoff Structure (558) with an Underground Outlet (620).	Yes <input type="radio"/> or No <input type="radio"/>
